Re: MACT Subpart ZZZZ Area Source Initial Notification
Appalachia Midstream Services, LLC (AMS)
Jefferson Compressor Station
Site ID: 726251

To Whom It May Concern:

Per 40 C.F.R. § 63.9(b)(2) and § 63.6645(a)(2), AMS is submitting this initial notification for the following affected facility as defined by MACT Subpart ZZZZ. Enclosed is information regarding the affected facility. According to 40 C.F.R. § 63.6590(a)(1)(iii), the facility is considered an existing spark ignition (SI) stationary reciprocating internal combustion engine (RICE) located at an area source of hazardous air pollutants (HAP). The primary HAP emitted from the affected facility is formaldehyde with negligible amounts of acrolein, methanol, and acetaldehyde. According to 40 C.F.R. § 63.6595(a)(1), each existing stationary SI RICE located at area source of HAP is not required to meet the applicable emission limitations or operating limitations until October 19, 2013. If you have any questions, please contact me at (405) 935-7869 or by email at CMAirGroup@chk.com.

Sincerely,

Jaron Hill
